INTEGRATED LOCAL DEVELOPMENT PROJECT (ILDP)

REF: ILDP/OUT/26/09
5 February, 2009

Dear Mr. Imamović,

Subject: Application of the Municipality of Kladanj for participation in the Integrated Local Development Project

It is with great pleasure and anticipation for a future mutually beneficial partnership that I would like to inform you that the Municipality of Kladanj has successfully completed the comprehensive and highly competitive assessment process and has been selected as partner municipality within the Integrated Local Development Project (ILDP).

As you are aware, the ILDP is a joint initiative of the Swiss Agency for Development and Cooperation and the United Nations Development Programme, supported from the BiH Ministry for Human Rights and Refugees, Federal Ministry of Justice, RS Ministry for Administration and Local Self-Governance and both entities' Associations of Municipalities and Cities aiming at modernising and strengthening local strategic planning throughout BiH.

On behalf of all project holders I would like to welcome you in the family of ILDP partner municipalities and thank you for your strong commitment and motivation to undertake a participatory and integrated local development planning process. This moment marks the beginning of a long-term partnership, which entails substantial efforts, mutual trust and comprehensive inputs from the municipality and its local socio-economic partners towards pilot application of the new standardised local planning methodology for BiH and elaborating of the municipal development strategy, as well as overall strengthening of local capacities and partnerships.

The ILDP plans to organise an information and orientation event for all our partner municipalities in early March 2009, where we would present in more details the partnership framework and objectives, expected timeframe, actions and modalities of the process, as well as will respond to any questions you might have at this stage. You would be informed about the information meeting accordingly.

Looking forward to positive and impactful cooperation.

Sincerely,

Marina Dimova,
ILDP Project Manager
